

## Dan Myher Remodeling

After having twins, we decided that we needed to upgrade our kitchen. Imagine having five month old twins, and your kitchen out of working order. It truly could have been a nightmare, but Dan and his team were nothing but professional. They not only did an excellent job on the kitchen, but they also were professional, courteous, and prompt while completing the job.

We loved the kitchen so much that we had Dan and his team finish our basement. Again, he and his crew displayed nothing but exceptional work and customer service. We constantly receive compliments on the kitchen and basement, and thanks to Dan we didn't lose our minds during the process.

I highly recommend Dan Myher Remodeling!

Sincerely,
